

Principal's Go Green Pledge

As the principal, I pledge to support OPS' Green Schools Initiative (GSI) and help my school save energy and resources. I will actively support and/or implement efforts at my school aimed at achieving the following goals:

- start/strengthen my school's green team
- decrease energy use
- reduce waste
- increase recycling
- reduce paper consumption

By taking this pledge and endorsing GSI-related activities, I realize that I help reduce operating costs, improve the environmental impact of my school, and make my school an even better place to learn, teach and work.
